

Enhancement Jr.

Pink and White Sculpted UV Gel Nails

1. Sanitize hands
2. Perform mini manicure:
 - Remove non- living tissue with cuticle remover, rinse, and dry nails.
 - Gently remove shine from all ten nails using 240 grit abrasive.
 - Using a prep product and a plastic-backed nail wipe, dehydrate and cleanse each nail plate.
3. Apply forms to the nails of left hand.
4. Dehydrate and cleanse again.
5. Apply UV Gel Bonder.
6. Sculpt free edges in white, freeze for 10 seconds in UV Lamp, then apply sheer pink to zones 2 and 3.
7. Cure both hands without thumbs for 2 minutes, then thumbs for 2 minutes.
8. remove Inhibition layer, then refine shape with a 180 grit abrasive, followed by a 240 for smoother Finish Gel application.
8. Apply UV Finish Gloss, cure for 2 minutes. Remove Inhibition layer with prep product.
9. Massage hands and cuticles with cuticle oil and hand lotion.
10. Photos taken with 10.1 megapixel digital camera, cropping and touch ups done with Windows Live Photo Gallery.
