

Essay

French Manicure, sculptered with liquid and powder.
Enhancement Junior

- 1) I have started with washing the hands of both my model and myself.
- 2) Afterwards I have introduced a cuticle remover at one hand so that the cuticle could be pushed well and easily to the back with wooden stick.
- 3) Have removed non living tissue.
- 4) I've rinsed one hand and dry one hand.
- 5) I removed shine with an 240 gritt abrasive.
- 6) I have disinfected the nails of one hand with swipe, and used proteinebond.
- 7) Repeat steps 2 trough 5 on the other hand.
- 8) To extend the nails I have used forms.
- 9) Sculpt free edges in white at zone 1 at one hand. Have apprehended as a length natural as possible of approximately 1/3 of the nail plate.
- 10) Apply a natural pink to zones 2 and 3 at one hand.
- 11) Repeat steps 6 and 8 trough 10 on the other hand.
- 12) Remove forms at both hands
- 13) Refine shape with a 180 gritt abrasive, refined sidewalls and lower arches.
- 14) Remove any scratches with a sponge 240 gritt abrasive.
- 15) Remove dust.
- 16) Massage cuticle oil.
- 17) For this set i used an glossingblock for the shine. No topcoat is used.
- 18) I took pictures, down the barrel and presentation.
- 19) Applied 2 coats of red polish. No topcoat used.
- 20) Took close-up picture.
My foto' s has been made with a 10,1 megapixel digital mirror reflex camera. (how do you say it in English????)
Images cropped with Microsoft Paint.
