### Pink and White Tip Overlay with Acrylic

1. Washed models and mine hands in antibacterial soap.
2. Sanitized models and mine hands.
3. Prepped the nails, with cuticle remover and pushed back cuticles.
4. Removed shine and dehydrated nail plate to accept tips.
5. Applied tips, cut to size and shaped nail tips
6. Removed dust and reapplied dehydrator to nail plate to accept acrylic.
7. Applied pink acrylic to zone 2 and 3 of each nail paying close attention to zone 2 the apex placement.
8. Applied clear acrylic to zone 1 in front of zone 2 the apex to each nail.
9. Then applied clear acrylic to zone 2 and 3 to incase the pink acrylic pulling clear acrylic across all zones of all nails to the free edge.
10. File and shaped the nails with a 180 grit file.
11. Buffed all nails with a 240 grit file.
12. Model washed hands and used a manicure brush to clean surface and under the free edge.
13. Used a UV Sealer to bring to high shine under a UV Lamp for 3 minutes.
14. Applied Cuticle Oil and massaged hand and arm of model.

Camera used was a Kodak CX7430 Firmware Version 1.0000
