

ESSAY

Client and Nail Techs hands were sanitized.

Cuticles were pushed back.

Hangnails were nipped.

The shine was gently removed from the nail bed with a 180 grit file.

White tips were cut to size , applied and shaped.

The white tips were enhanced with white acrylic powder.

Nailbeds were overlaid with pink acrylic powder.

Nails were shaped and refined with a 180 grit file.

Nails were buffed with the 220 grit buffer with oil.

Client washed her hands.

Two coats of top coat were applied to all nails.

Photos were taken at this point.

Two nails were base coated, two coats of red cream polish and top coated for the close up shot.

An Olympus Fe-340 camera was used. There was no editing of the photos.
