

Enhancement Sr.

Custom-blended Pink and White liquid and powder over tips

1. Sanitize hands
2. Perform mini manicure:
  - a. Remove non- living tissue with cuticle remover, rinse, and dry nail plates.
  - b. Gently remove shine from nail plates using 240 grit abrasive.
  - c. Using a prep product and a plastic-backed nail wipe, dehydrate and cleanse each nail plate.
3. Using a soft white powder, sculpt moons on all five fingers.
4. Apply natural tips to the nails of left hand, trim, blend flush with nail plate and shape.
5. Dehydrate and cleanse again.
6. Sculpt overlay over tips:
  - a. Zone one in white, making smile lines extra deep. Pinch in C-curves.
  - b. Zone 2 with a coverage pink to give the nail plate an elongated appearance
  - c. Zones 2-3 custom blend coverage pink with clear pink to feather into zone3
  - d. Finish zone 3 with clear pink.
7. Refine shape with a 180 grit abrasive, then with a 240, then a 1200 and a small amount of cuticle oil.
8. Buff to high shine with a glossing block.
9. Take presentation, apex, and down the barrel photos, then polish two nails with two coats of red cream polish. Take close up photo.
10. Photos taken with five megapixel digital camera, and cropping/resizing done in a photo-editing program.
