

Fall Leaves

The nails I did on myself were sculptured with crystal clear acrylic with hand sculpted fall leaves using rust, orange and green colored acrylic powders on top of the sculpted nails, then overlaid with a sheer glitter acrylic, then capped with crystal clear acrylic. I then hand painted the veins on the leaves with brown and gold acrylic paint using a fine line paint brush as well as the gold swirls; once done with both hands applied two coats of gel sealant for nice shine.

Pictures were taken with a Kodak EasyShare camera and edited on Picasa.
