Flat Nail Art

My model had an existing set of nails. I rebalanced her nails extending her pinkie nail to a stiletto shape.

Next I painted all nails with a black lacquer. Using a UV top coat to cure

Next I painted all characters in white acrylic paint.

Shading each character in colors(i.e. pumpkin: orange Dracula; skin tone, Frankenstein: Green)

Using a 10/0 liner brush I enhanced each characters features and then I took pictures

I used a Nikon D50 Camera to take a composition shot. Side shot and a close up shot.

No program was used to enhance photos.
