

## Strut Your Stuff 2008

### "Music"

1. Using extra long nail tips, apply cream color polish. Allow to dry.
2. Sponge a light brown to each tip, to create a parchment effect.
3. Using a fine lining brush and black polish, draw 5 lines on the top third, and 5 on the bottom third, to create the staves.
4. Using the same black polish and a fine brush, add treble and bass clefs, rests and music notes to create "music". I used Fur Elise as a guide.
5. Add dried flowers randomly, using clear polish to each nail. Allow to dry.
6. File any rough edges, and apply 2 coats of a clear polish with glitter.

I used a Kodak c340 camera & easy share software to process my pictures.
