

HIPPIE NAILS.

I wanted these nails to look textured and the more you look at them the more you see.

The base was made using foils and mother of pearl under clear acrylic.

I then place various `sloches` of different colour nail polish on the nails. I then hand painted the designs on the `splodges` with acrylic paint. I wanted them to look like material. The other designs were then added by handpainting with acrylic and glitter paint. I added a couple of gem stones and then gave them a clear top coat. The back ground is denim and cheese cloth material with silk flowers.
